

Logistics Scorecard

Reframing Systems, Stewardship, and Support for the Mission

Purpose:

This scorecard helps leaders, families, and teams evaluate the health of their systems, rhythms, and communication through a gospel lens. Logistics is not merely operational, it's spiritual. When rooted in grace and guided by clarity, logistics becomes a form of love that sustains long-term momentum and reflects the intentional heart of Jesus.

Use Section 1 for personal rhythm, family flow, or coaching self-reflection.
